Integration Architectures

Assignment No. 1.2

Due Date 26. October 2021

Student: Georg Wolnik

b) Does the interface of the control class fulfill the CRUD pattern entirely ?

No. The CRUD Pattern describes the (C)reation, (R)eading, (U)pdate and (D)elete of data from a database. In this case, the creation and reading part from exercise 1.2 a) were implemented but the update and delete methods were missing. This was added due to exercise 1.2 b).
